

HEERF II STUDENT GRANT POLICY

The Coronavirus Response and Relief Supplemental Appropriations Act, 2021, which establishes and funds the Higher Education Emergency Relief Fund (HEERF II), directs institutions of higher education (“institutions”) to use 100 percent of funds received under the Student Aid Portion of the CRRSAA 2021 to provide emergency financial aid grants to students for any expenses as listed in the following paragraph.

Institutions must make financial aid grants to students, which can be used for any component of the student’s cost of attendance or for emergency costs that arise due to coronavirus, such as tuition, food, housing, health care (including mental health care), or child care. Unlike the CARES Act, the CRRSAA requires that institutions prioritize students with exceptional need, such as students who receive Pell Grants, and authorizes grants to students exclusively enrolled in distance education.

Mineral Area College will use passive acceptance of the grant funds as confirmation that the recipients will use the funds as directed in the previous paragraph. Students who have not incurred these expenses will be given the opportunity to opt out of the grant within five days from the award notification.

Students will receive a full refund of the Emergency Cash Grant but will be advised that they may at their discretion use those funds to pay any outstanding balance on their student account at MAC.

Query 2 - Group 2

Of those in Group 1

Currently Enrolled – As of March 1, 2021

Exclude High School Students

Here is my criteria (this is your note from Cares Act Grant processing last year I just updated the dates to the current term)

I grabbed courses that would make that student "enrolled" during the period we were looking at. I excluded any student with the classification of "HS" then the specifics for 8B subterm courses, I only picked up courses that didn't have a drop_dte or the drop_dte was greater than or equal to 3/22/2021 (start of 8B) then for non 8B subterms, I only picked up courses that didn't have a drop_dte or the drop_dte was greater than or equal to 3/01/2021 (date you provided).

For the final I grabbed only students that were in the courses table and displayed their information.
