

SIX SIGMA BLACK BELT COURSE

Presented by Mineral Area College

Mineral Area College will once again offer the four-week Six Sigma Black Belt course for area companies. We have contracted with Missouri Enterprise to present the course. An information meeting has been scheduled for Tuesday, August 24 at 1:30 p.m. at the Perryville Higher Education Center. The course instructor will be conducting the meeting. Possible participants are encouraged to attend as well as upper management who will have to support the Six Sigma concept and projects in their companies.

Information

Meeting: August 24, 1:30 p.m.

Class Dates: September 20 - 24 October 18 - 22
November 8 - 12 December 6 - 10

Time: 8:30 a.m. - 5 p.m. daily

Location: Perryville Higher Education Center, 108 S. Progress Drive, Perryville, Missouri

Course Cost: \$4000 per person (10% deposit due upon enrollment in the course)

Materials: \$500 per person (includes manuals, software, and handouts)

The information session will include in-depth discussion about the Six Sigma concept, course content and pre-requisites for the class. If you are undecided about Six Sigma, this meeting should provide with you the necessary information to help you determine if it is the right concept for your company. This will be your opportunity to ask any questions you may have about Six Sigma. In addition, enrollment information will be distributed at the meeting.

There is no cost for the information meeting, but we would like for you to notify us as to the number of people attending the meeting from your company. This will help us to determine how many sets of handouts we need to make. Feel free to RSVP phone (573-270-3542) or fax, 573-518-2292 by Wednesday, August 18. Directions to the Perryville Higher Education Center are as follows: Take the Perryville Exit off I-55, go East 1/2 mile, make a left onto Edgemont Blvd, at the stop sign turn right onto Progress Road. The first building on your left is the Perryville Higher Education Center.

We are excited about the opportunity to bring you this course locally and at a substantial cost reduction. Please do not hesitate to call if you have any questions.
