

SET-UP REDUCTION SEMINAR
MONDAY, APRIL 12, 2004, 8 A.M. – 12 NOON.

Participants will learn the fundamental principles of set-up reduction at this seminar. The value gained by reducing set-up time will also be discussed.

Here's what you will learn:

- **Common obstacles to Quick Changeover**
- **How to use the principles advanced by Dr. Shigeo Shingo in his work on Single Minute Exchange of Die (SMED) to overcome obstacles.**
- **The standard methodology in applying Quick Changeover to any type of set-up or industry.**
- **Techniques and processes on how to reduce set-ups from hours to minutes or even seconds.**

Workshop Instructors – Missouri Enterprise

You will be lead in this training by members of Missouri Enterprise. All are experienced in the principles of set-up reduction and have applied these principles in many industries. They're "real world", hands-on people who understand the needs and concerns of Missouri manufacturers like you.

Who should attend:

Managers, operations personnel, machine operators, production leaders and maintenance personnel.

Format:

4 Hour session
