The U.S. Department of Education administers the William D. Ford Federal Direct Loan (Direct Loan) Program. The Direct Loan programs consist of what are generally known as Stafford Loans (for students) and PLUS Loans (for parents).

Schools generally participate in the Direct Loan Program. Under the Direct Loan Program, the funds for your loan come directly from the federal government.

Who may borrow?

Full or half-time undergraduate students who are enrolled in a degree or certificate seeking program.

How to choose a lender?

If you have a Direct Stafford Loan, the federal government through the U.S. Department of Education is your lender.

How much can I borrow?

It depends on your year in school and whether you have a subsidized or unsubsidized Direct Stafford Loan. A subsidized loan is awarded on the basis of financial need. If you're eligible for a subsidized loan, the government will pay (subsidize) the interest on your loan while you're in school, for the first six months after you leave school, and if you qualify to have your payments deferred. Depending on your financial need, you may borrow subsidized money for an amount up to the annual loan limits shown below.

You might be able to borrow loan funds beyond your subsidized loan amount even if you don't have demonstrated financial need. In that case, you would receive an unsubsidized loan. Your school will subtract the total amount of your other financial aid from your cost of attendance to determine whether you're eligible for an unsubsidized loan. Unlike a subsidized loan, you are responsible for the interest from the time the unsubsidized loan is disbursed until it's paid in full. You can choose to pay the interest or allow it to accrue (accumulate) and be capitalized (that is, added to the principal amount of your loan). Capitalizing the interest will increase the amount you have to repay.

You can receive a subsidized loan and an unsubsidized loan for the same enrollment period as long as you don't exceed the annual loan limits.

What's the interest rate?

For all Direct unsubsidized Stafford loans first disbursed on or after July 1, 2006, the interest rate is fixed at 6.8 percent. The interest rate for subsidized Stafford loans first disbursed on or after July 1, 2009 is fixed at 5.6 percent. This change from a variable to a fixed interest rate does not affect a borrower's variable interest rate on loans made before July 1, 2006.

For Stafford Loans first disbursed between July 1, 1998 and June 30, 2006, the interest rate is variable (adjusted annually on July 1st) but will not exceed 8.25 percent. (You'll be notified any time the variable rate changes.) The interest rate for these loans in 2009-10 is 2.48. (These rates apply to loans in repayment status; the rate may be lower during grace and deferment periods.)

Other than interest, is there a charge for this loan?

For Stafford Loans that are first disbursed between July 1, 2009 and June 30, 2010, there is a fee of up to 1.5 percent of the loan, deducted proportionately from each loan disbursement. For a Direct Stafford Loan, the entire fee goes to the government to help reduce the cost of the loans. Also, if you don't make your loan payments when scheduled, you may be charged collection costs and late fees.

When will you receive your loan money?

You usually will receive your loan proceeds in two or more installments called "disbursements." The Financial Aid Office will determine the number of disbursements you will receive and the dates you will receive them.

When does repayment begin?

Repayment will begin six months after you graduate, leave school, or drop to less than half-time enrollment.

When do I pay back my Direct Stafford Loans?

Repayment will begin six months after you graduate, leave school, or drop to less than half-time enrollment.
