SUMMER CAMPS
July 11-29

College for Kids is a summer enrichment program offering fun, hands-on learning opportunities for kids entering grades 2 – 8 in the following fall school year.

Teen Academy is a summer enrichment program offering advanced, hands-on learning opportunities for kids entering grades 7-9 in the fall. Students in this camp can in enroll in individual classes.

THEATRE and ATHLETIC CAMPS are listed at www.mineralarea.edu/ce/MACKids.

Courses for Grades 2-8

Globe Trotters                      Magic Tree House: The Knight at Dawn
Living like the Natives             Science Mess Fest
Magic Tree House: Dinosaurs before Dark The Wild West

Courses for Grades 4-8

Babysitting Basics · Extreme Painting · Ohm, Dr. Watts, I Presume
Building for Birds · Genius Hour · Painting the Impressionist Way
Basic Drawing · Knights, Kings, Jesters · Percy Mythology 101
Creating Coasters · Magical Hogwarts · Percy Explosion Camp
Elbow Grease Gang · Mad Scientist · Pikachu Camp · Shipwrecked Spaceships · Tissue Treasures · Twisted Fairytale · You’re the Boss

Teen Academy Courses

Digital Music Composition          Flight Academy          Graphic Design
House of the Rising Sun            Writers’ Workshop       Programming Basics with Wink/Ringo
Robot Boot Camp                    Programming Basics with Wink/Ringo

Page 1
CAMP ELIGIBILITY

College for Kids (CFK) is open to kids who will enter grades 2 - 8 in the fall.
Teen Academy is open to kids who will enter grades 7-9 in the fall.

DATES and TUITION  + $10 Registration Fee after June 3

CFK: Mon through Fri, July 11-15 and Mon-through Fri, July 18-22
Teen Academy: Mon through Fri, July 25-29

Times: See individual schedules for course times.

Tuition per course is $35, except for the following:
- Babysitting Basics, $45 ($35 + $10 book)
- Percy Jackson Explosion Camp, $70 (20 total hours)
- House of the Rising Sun, $70 (20 total hours)
- Writer’s Workshop, $70 (20 total hours)

REFUND POLICY

Cancellations and requests for refunds must be received 7 days prior to the start of each class session. Students dismissed from the program due to disruptive behavior will not be eligible for a refund.

SCHOLARSHIPS

A limited number of $105 scholarships will be awarded to children on a first-come, first-served basis who meet the income guidelines for the Federal Free or Reduced Lunch Program. To apply, copy of household 2016 income tax returns (p.1) must accompany the registration and application forms. Only one scholarship per family will be awarded, but families may split the scholarship between siblings.

INSTRUCTIONS FOR REGISTRATION

One Registration Form and one Application must be submitted for each child along with full payment. The $10 Registration fee is waived for applications received before June 4. The Schedule is your guide for selecting courses. It tells which courses are offered each week and at what time through the day.

Students staying through the lunch hour should bring their lunch in insulated containers; no microwave or refrigerator is available.

Once courses have been selected from the Schedule, write them on the Registration Form. Double-check your courses to make sure they are offered in the timeframe that you have selected and to make sure the grade level is appropriate for your child.

Courses are filled on a first-come, first-serve basis, so please include a second course choice in the event that your preferred class is not available.

Students will receive their schedule of classes in the last week of June. If you need or want to make changes to your schedule, please contact us and we will do our best to accommodate changes.

Complete the Application and Registration Forms and return them with payment to MAC College for Kids, P.O. Box 1000, Park Hills, MO 63601.

<tbody>
<tr>
<td>Globe Trotters</td>
<td>Travel the world- without leaving home! Discover what kids like you enjoy doing in Italy, Russia, Japan, Brazil and Egypt. You’ll also learn about special holidays, the kinds of food they eat, important events in their history- and you’ll even learn how to say a few words in each language!</td>
</tr>
<tr>
<td>Living Like the Natives</td>
<td>Come explore what life was like before the Pilgrims crossed the ocean on the Nina, Pinta and Santa Maria. We will learn about several Native American tribes, including the Illini tribe that used to live right here! We’ll cook Native American food, learn a dance, decorate a teepee, learn how to write our name in Cherokee- and much more!</td>

**Magic Tree House: Dinosaurs Before Dark**  
**Teacher: Alesha Sikes**  
A giant creature with a sharp beak and bat-like wings was gliding above the treehouse. What could it be? We’ll follow Jack and Annie back in time to find out who the magically tree house belongs to- and learn all about dinosaurs along the way! We’ll dodge dinosaurs like Jack and Annie do to get back home. Follow the siblings as they try to figure out a way home by dodging triceratops, and the scary t-rex!! Will you find the hidden golden medallion? Join us as we dode these amazing dinosaurs, make casts of dinosaur footprints, search for the golden medallion, create our own flying pteradon kite and much more!

**Magic Tree House: The Knight at Dawn**  
**Teacher: Alesha Sikes**  
Let the Magic Treehouse transport you back to the time of knights and castles where you will explore a castle with a secret passage with Jack and Annie! You’ll make your own armor and learn all about this exciting time in history known as the medieval age.

**Science Mess Fest**  
**Teacher: Sarah Sebastian**  
Bring an old shirt, because we’re getting messy in this class! Some experiments come alive from stories we’ll read while others are just plain fun. You’ll make a rainbow in a jar, cloud dough (like moon sand), bubble solution and more- all while learning a little about scientific method and exercising your problem-solving skills!

**The Wild West**  
Did you know that St. Louis was the gateway to the wild frontier? In this class, you will discover what life was like in the wild west- what did kids do for fun? Did Jesse James and other outlaws really live in Missouri? We’ll make our own ice cream, have a cattle round-up, a Pony Express relay, and more while practicing our math skills, learning a little about chemical changes and American frontier history!
Babysitting Basics, Grades 4-8  
Teacher: Morgan Comnick  
Taking care of children is a big job; be prepared! Tweens and teens will learn how to start their own babysitting business. In addition to parent checklists, business cards and basic first aid, students walk away with a tote bag full of tricks to help kids cope with separation anxiety, bedtime, playtime, and emergencies. Be the best babysitter on the block! ($10 extra for required textbook. Students need to bring a baby doll if they can.)

Basic Drawing, Grades 4-8  
Teacher: Frederick Hall  
Learn how to make drawings using proportion and values to create realistic objects. Learn to deepen the contrast in your drawings to make them truly awesome.

Building for Birds, Grades 4-8  
Teacher: Pam Frakes  
This class IS for the birds! Have fun building a birdhouse and feedings stations for the birds in your backyard. We’ll also learn how to recognize common Missouri birds – and visitors that often pass through in the spring and fall. You’ll become aware of their songs and learn where they like to live- soon you will be twittering and chirping about all you know!

Create your own ‘Coaster, Grades 6-8  
Teacher: Jenna Hemmann  
Have you heard of the Goliath? What about the Intimidator? Superman? These are all on the list of America’s scariest roller coasters. Do you think you have what it takes to create a roller coaster scary enough to top them all? Take a chance and learn the ins- and outs of what it takes to engineer your own roller coaster!

The Elbow Grease Gang, Grades 4-8  
Teacher: Pam Frakes  
Is your brain physics-ally fit? Join the Elbow Grease Gang and learn about simple machines and Newton’s laws. Each day will be full of experiments and projects to help strengthen your brain. We’ll use a variety of science equipment and labs to build machines that really work!

Extreme Painting, Grades 4-8  
Teacher: Frederick Hall  
Go crazy and have fun with acrylic paints as you design and create your own paintings and improve your painting prowess. Non-abstract project skills are also included.

Genius Hour, Grades 6-8  
Teacher: Jenna Hemmann  
Discover the genius inside of you! Each student will be guided to design and pursue their own passion project. Do you want to save animals? What about coding your very own video game? Maybe, you would like to create a community garden. In this class, you’ll test the limits of your imagination and discover your inner-genius!

Knights, Kings, Jesters and Castles, Grades 4-8  
Teacher: Morgan Comnick  
Who hasn’t wanted to live in a castle and be a brave knight like King Arthur? Discover more about the Middle Ages in this minicamp! Learn how to speak like you’re from the 1500th century, how to sword fight the knight way, get a job at the castle, make a huge 3D castle with your classmates, and perform and create a medieval skit with everyone worthy of a traveling fair, and much more! See soon my fair lads and poppets! Huzzah!

Mad Scientist Concoctions, Grades 4-8  
Teacher: Pam Frakes  
You’ll mix up fun concoctions and get messy as your brain explores with new knowledge! You’ll use real science lab beakers, cylinders and test tubes and apply scientific method as you experiment with safe chemicals. When it’s all said and done- you’ll want to grab a friend and try this at home!

Magical World of Hogwarts, Grades 4-5  
Teacher: Alesha Sikes  
Love Harry Potter? You’ve been accepted into Hogwarts’ School of Witchcraft and Wizardry where you’ll create your own wand and hat and learn to mix magical potions and write spells. We’ll make chocolate covered frogs and play games while exploring the magical world of literature and fiction!
Ohm, Dr. Watts, I presume, Grades 4-8
Teacher: Pam Frakes
You’ll discover how electricity works- and how you can harness the power in this hands-on class! You’ll build a battery, an electromagnet and several circuits that will ring bells and light up your world. We’ll use common objects and the Electronic Playground to amplify your knowledge and skills.

Painting the Impressionist Way, Grades 4-8
Teacher: Pam Frakes
Can you catch the way a scene looks at a specific moment in time? Would you like to paint the way light plays upon the landscape? Impressionists often paint plein aire, paintings outside, to try to do just that. Come learn the basics of impressionism and practice your new skill in several paintings indoors- and out, weather permitting.

Percy’s Mythology 101, Grades 4-8
Teacher: Morgan Comnick
Love The Percy Jackson and The Heroes of Olympus series? At Camp Half-Blood, we’ll learn about the Greek main gods, goddesses, and monsters through games and crafts, make ambrosia, and even go on your own heroic quest after discovering your godly powers!

Percy Jackson’s Greek EXPLOSION Camp!, Grades 4-8
*NOTE: 20-hour class, $70
Teacher: Morgan Comnick
If you have taken Percy’s Mythology 101 and think you know the Big 12 of Mount Olympus, then Camp Demi House is your next step! Zeus may have dubbed them unimportant, but these minor Greek gods and goddesses, Titans and famous demigods are ready to have their legends told and experienced through awesome games and crafts. Lightning will strike, and water will crash as we save the world from the newest prophesy. Answer the call, brave demigod; this camp is going to be a BLAST!

Pikachu’s Pokemon Camp, Grades 4-8
Teacher: Morgan Comnick
Want to be a Pokemon Master? Get your pokeballs ready! Find your favorite Pokemon to form your team for battle (using all six generations), play Pokemon games, make Pokemon inspired crafts (including your own Pokeball), learn some interesting facts about the series, and watch some electrifying Pikachu shorts. I choose you to come to this camp!

Shipwrecked!, Grades 4-5
Teacher: Jenna Hemmann
You’ve been stranded on a remote island…alone!! You must find a way to survive using only the materials that you have on hand. Students will explore how to harness the sun’s energy to create food, shelter and even power. Test your survival skills by creating a model of each thing you may need to survive on the island- by the end of the class, you may just want to move there!

Spaceship CFK, Grades 4-5
Teacher: Lydia Matheny
In this crash course on astronomy, the classroom will become our spaceship to explore our solar system and beyond. Make a rocket, test “Martian” soil for life, and see all the constellations while still indoors. You might even get a chance to talk to extraterrestrials before you return to Earth.

Tissue Paper Treasures, Grades 4-8
Teacher: Pam Frakes
Picasso and Braque may have invented collage, but you’ll make it famous with your colorful, tissue paper masterpieces! You’ll also explore other artistic outlets by creating a tissue paper bowl and a tissue flower arrangement while experimenting with 2- and 3-dimensional art!

Twist that Fairytale, Grades 4-8
Teacher: Morgan Comnick
We’re shaking up everything you thought you knew about classics like “Cinderella” and “Little Red-Riding Hood”! We’ll read both the classic versions and the funny, fractured ones with a twist- then bring them to life through crafts and games. On Friday, we get to write our own twisted fairy tale and perform it as a class. The magic and rolls of laughter are waiting for you!

You’re the Boss!, Grades 6-8
Teacher: Tadao Gibson
Want to be your own boss one day? In this class, you’ll learn how to figure product cost, set a price for your product, and brainstorm marketing ideas—and you’ll apply everything you learn to run a lemonade stand during the lunch hour! On Friday, you’ll use all that hard-earned dough for a pizza party!

Take only one course- or as many as you can fit in your schedule!
COURSE DESCRIPTIONS

Digital Music Composition: Jake Cantrell $35
Students will use specially designed computer software to compose original music, as well as learning proper song structure and instrumentation. Any genre of music may be selected and developed through instructor guidance and peer feedback. Students will present their finished work at the end of the course.

Flight Academy: Steve Vogt $35
If you have an interest in becoming a pilot, you will want to take this class! You will learn about the many types of pilot licenses and what they enable you to do then you’ll tackle four classes from the actual ground school course. You’ll learn about airplanes and aerodynamics, airplane instruments, engines and systems, air traffic control, airspace and get introduced to flight maps and flight planning.

House of the Rising Sun: Morgan Comnick $70 (20-hrs)
“Konnichiwa!” Take a trip to Japan without leaving Missouri! Learn basic Japanese words and culture through cool activities – from using chopsticks to watching anime, creating origami, and more! You even get to play a crazy Japanese game show and see real items from Japan. Sayonara Minna!

Introduction to Graphic Design: Jill Fletcher $35
In this class you’ll learn to use Adobe Illustrator and Photoshop- the same software professional marketing firms use to create logos, illustrations, cartoons and more. If you enjoy art and technology, you’ll love this class!

Programming Basics with Wink and Ringo $35
You’ll learn how to program Ninja-like robots, Wink and Ringo, to scoot around a table, dance, follow lines and react to light and barriers! You’ll be learning the same text-based language that will enable you to control any Arduino-based microcontroller.

Robotic Boot Camp: Greg Nichols $35
You’ll build at least one robot and program it to perform a variety of tasks, and on Friday, you’ll compete against classmates! Along the way, you’ll pick up elementary concepts of coding and programming and begin to understand how the laws of physics relate to practical applications. You’ll even learn how to keep an engineering notebook to record strategy, progress, challenges and modifications.

Writers Workshop: Morgan Comnick $70 (20-hrs)
Learn from a real writer, Morgan Straughan Comnick- author of Spirit Vision, what it’s like behind-the-scenes as an author-and what it takes to get published! In this class, you’ll explore different writing styles and famous writers while you create your own projects and stories. Using Mrs. Morgan’s book and your imagination, you’ll find writing a snap! To quote Spirit Vision, “Hold on to ‘what if’…”

**RELEASE OF LIABILITY**

I consent to my child(ren)’s enrollment in Mineral Area College (MAC) 2016 summer camps. I understand that inappropriate behavior or discipline problems will result in dismissal from this program without a refund. I will ensure that my children arrive on campus no earlier than 10 minutes prior to their first class start time and that they will be picked up promptly following the last class.

I understand that photographs or video of my child(ren) may be taken during participation in program activities and consent to their use in future MAC publications, press releases, presentations, and/or on the MAC website/social media for marketing purposes.

I understand that participation in MAC summer camp activities involves inherent risks of INJURY. I voluntarily agree to expressly assume all such risks which may result from the activity or in any way related to my child(ren)’s participation in the activity. In consideration of the right to participate in the activity, I hereby release from any legal liability Mineral Area College (MAC) and its trustees, employees, faculty, staff, agents, instructors and all individuals assisting with the activity for injury or death caused by or resulting from my child(ren)’s participation or in any way connected with my child(ren)’s participation in the activity, whether such injury or death was caused by the alleged negligence of MAC, another participant, or any other person or cause. This agreement will apply for each and every day my child(ren) engages in the activity during any of MAC’s 2016 summer camps on campus. I further agree to defend and indemnify MAC for loss or damage, including any that result from claims or lawsuits for personal injury, death, or personal property damage, relating to the activity or use of MAC facilities or equipment. The undersigned parent or guardian acknowledges that she/he is signing this agreement on behalf of a minor and that the minor shall be bound by the terms of the agreement. This agreement shall be binding on the participant’s assignees, subrogors, heirs, next of kin, executors and personal representatives.

I authorize any person connected with the activity or MAC to administer first aid to my child(ren), as they deem necessary. I authorize medical and surgical care and transportation to a medical facility or hospital for treatment necessary for my child(ren)’s well-being, at my expense.

I HAVE READ AND UNDERSTOOD THIS RELEASE OF LIABILITY AGREEMENT. I VOLUNTARILY AGREE TO ITS TERMS.
