MINERAL AREA COLLEGE PHILOSOPHY
Mineral Area College is dedicated to the philosophy that learning beyond high school is essential for the fullest development of the individual interests and capacities and for the training of responsible citizens who will make a worthy contribution in a democratic society. It further believes that the public two-year community college is in a unique position to contribute to the overall program of higher education by providing the first years of college at reasonable cost. Close to the community it serves, the College meets the needs, not only of those who will transfer to other institutions, but also who are preparing for careers in occupational programs, and those who value learning for its own sake. Through continuing education and cooperative programs, the College contributes to the economic development and general welfare of the region. Mineral Area College believes in an “open door” policy, offering to everyone an opportunity to benefit from higher education. The College will at all times strive for quality in its educational programs.

MISSION STATEMENT
Mineral Area College is an outstanding tax-supported community college committed to offering students a high quality, affordable education which will enable them to attain their career and other personal development goals. The College provides a quality teaching and learning environment, making every effort to provide opportunities for life-changing educational, career, and cultural opportunities.

RADIOLOGY PROGRAM MISSION STATEMENT
Mineral Area College’s Radiology Program exists to serve the professional health care needs of the area by providing a quality form of education needed to become a Registered Radiologic Technologist.

In pursuit of our Mission, the following goals will guide us:

1. The student will be clinically competent.
2. The student will demonstrate professionalism.
3. The student will demonstrate efficient communication skills.
4. Students will demonstrate problem solving and critical thinking skills.
5. Continue to monitor program effectiveness.
