

PROGRAM IN PRACTICAL NURSING (LPN)

for 2026-2027 Program

THE COLLEGE

Graduates are prepared to perform services inclusive of assessing the health status of individuals; participate in the development, modification, and evaluation of client care; provide care in acute and chronic care settings, rehabilitation facilities, and health care settings promoting preventative care; direct bedside care and serve as client advocates.

Upon successful completion of the program, the graduate should be eligible to apply to take the National Council Licensure Examination for Practical Nurses (NCLEX-PN).

Successful completion of the program, however, does not guarantee eligibility to take the licensure exam or to become licensed.

Refer to Missouri Nursing Practice Act, Chap. 335.066

Satisfactory achievement on the licensure exam will qualify the program graduate for licensure as a Licensed Practical Nurse (LPN).

Mineral Area College is fully accredited by the Missouri Department of Education and the:
