

Questions received for RFP

- CMU block backstop with 4 pole netting system Should this span from dugout to dugout? Yes
- 200 flip down seats Should these be elevated like softball spec They need to be elevated over the block backstop where the net starts
- -6' black vinyl security fence Where do you want this fence? This fence will run parallel to the road along the baseball field down to the softball field and connect
- Dugout face padding I am not real clear as to what you are asking for here? Any brick exposed on the front of Softball dugouts and Baseball backstop need to be covered with pads
- Baseball party porch outside RF Do you have dimensions for this ask? 60' x 30'
- Baseball dugout two tiered benches (pair) Is this two per dugout or two total? Enough benches to cover inside both dugouts at baseball
- Softball and baseball three-sided shade structure Can you be more specific as to how big you want this and where it will go Should there be a concrete pad under it? Mesh covers over the bleachers for shade and safety from foul balls at softball and baseball
